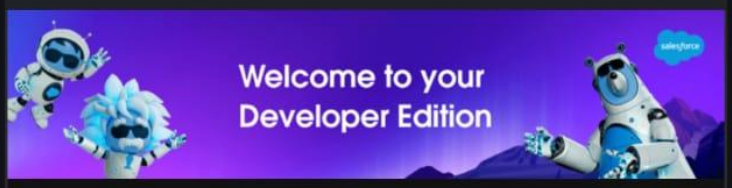
to me



Hi priyanka,

Thanks for signing up for a Developer Edition. Now you can start building on Salesforce for free and get hands-on with Agentforce and Data Cloud.

There's just one more step. Use the following link to reset the password for your Developer Edition. This link expires in 24 hours.

Reset Password

To easily log in later, save this URL:
https://orgfarm-5e6cade353-dev-ed.develop.my.salesforce.com

Here's the username for your Developer Edition:
priyankagopi2006.8f68993c30b5@agentforce.com

Your Developer Edition, now enabled with Agentforce and Data Cloud, remains active as long as you continue to use it. It expires after 45 days of non-usage.

Again, welcome to Salesforce!
Developer Relations

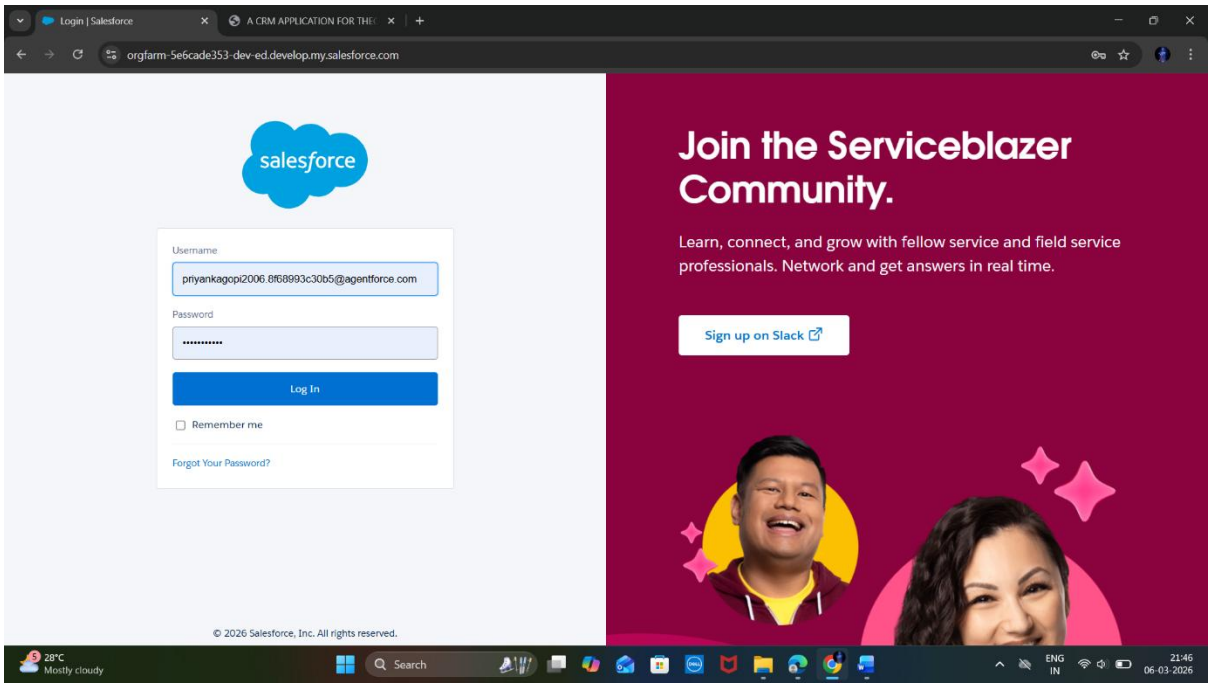
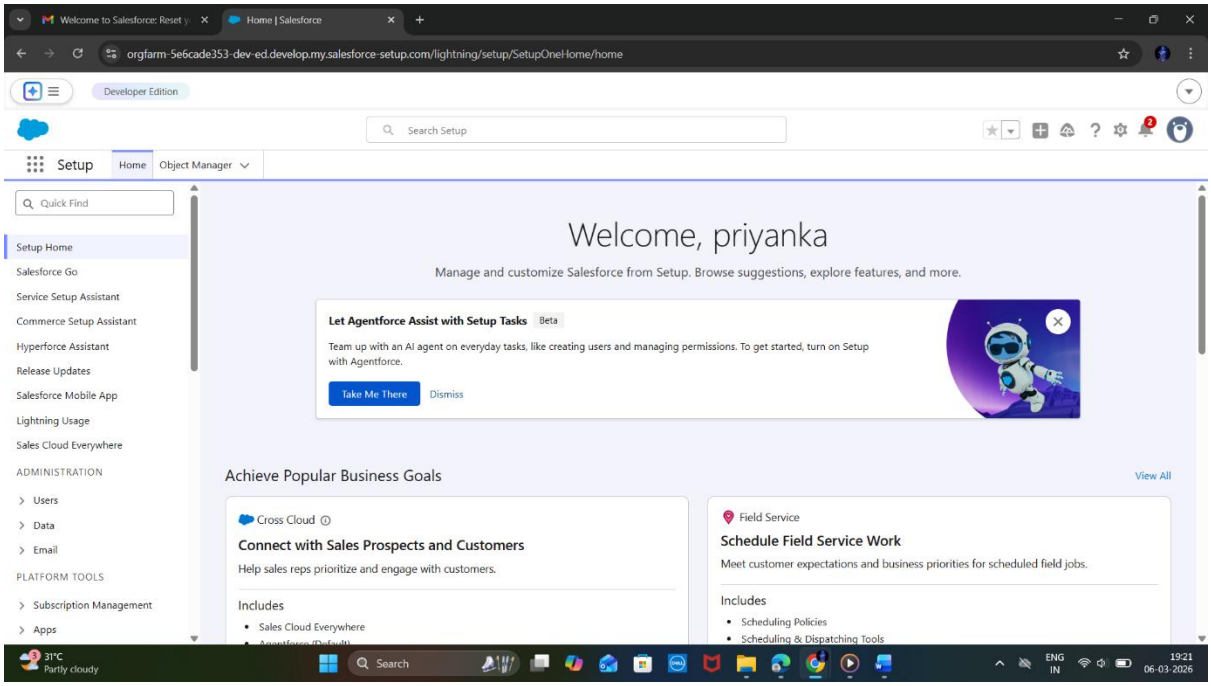
Give a password and answer a security question and click on change password.

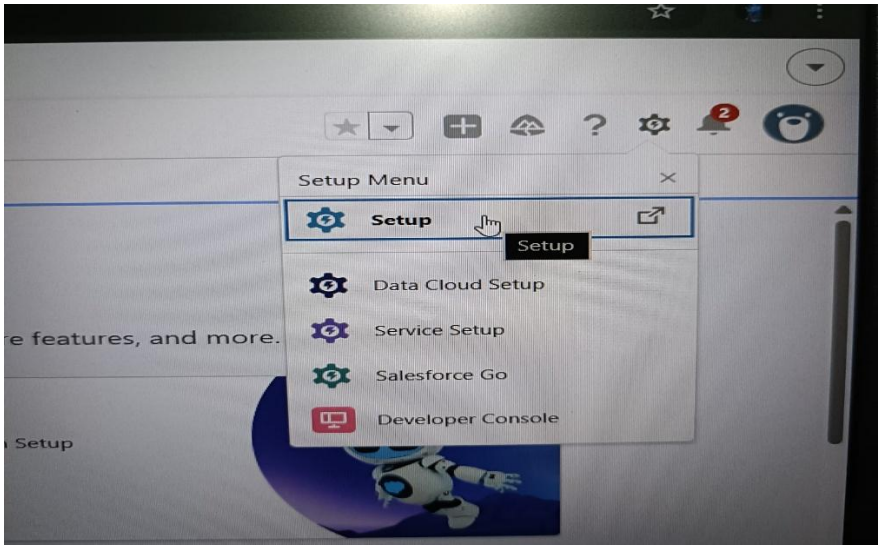


Then you will redirect to your salesforce setup page.

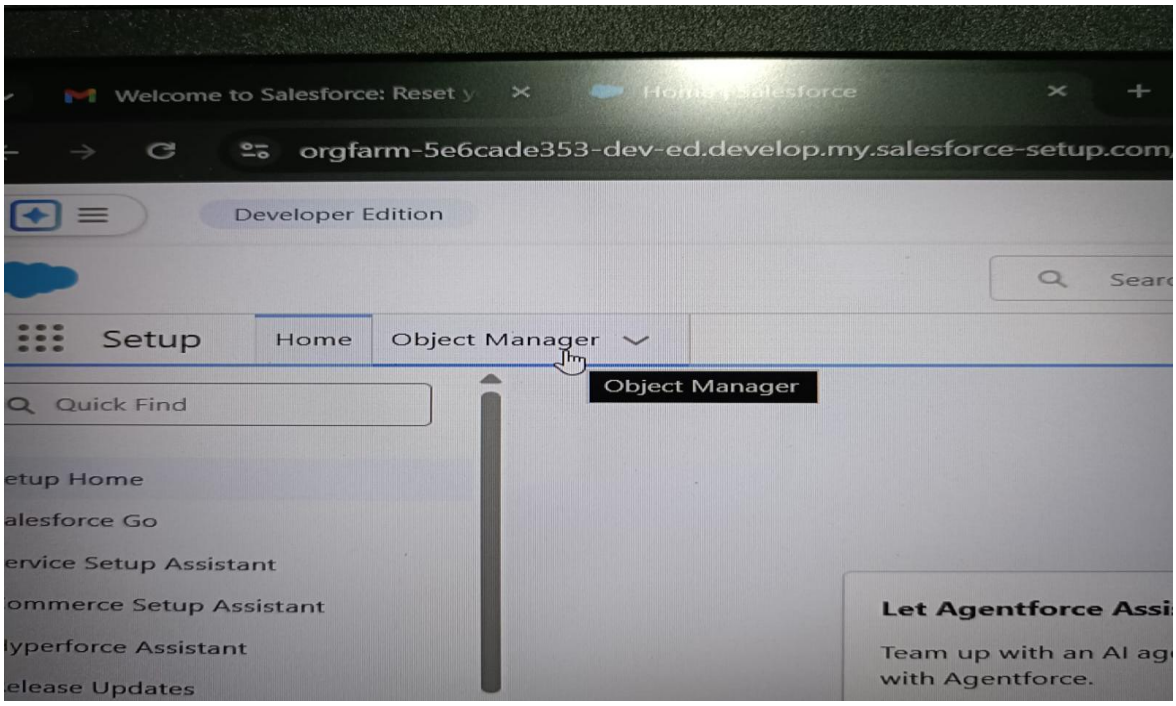


<u>Milestone 2 – Objects</u>

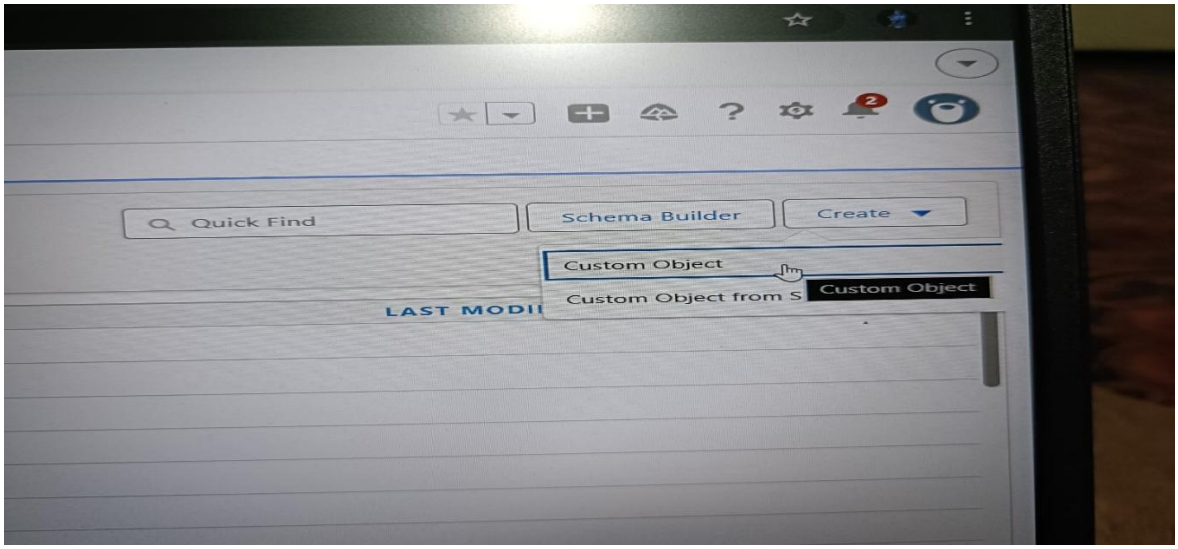
In your Salesforce org, click gear icon on the top left and select Setup to open Setup.



Click the Object Manager tab. If you don't see it, enter Object Manager in the Quick Find box.



On the Object Manager page, click Create | Custom Object.



Activity 1 : Employer Account Object

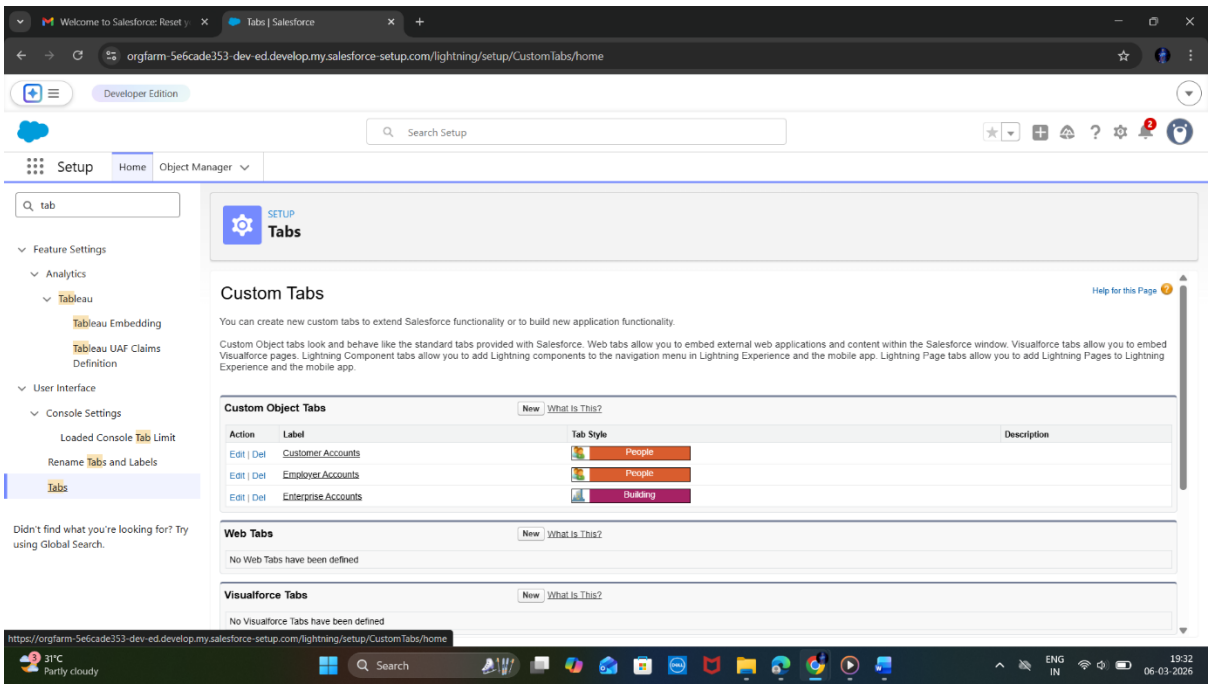
Activity 2 : Customer Account Object

Activity 3 : Enterprise Account Object

Milestone 3 – Tabs

Activity 1 : Custom tabs creation

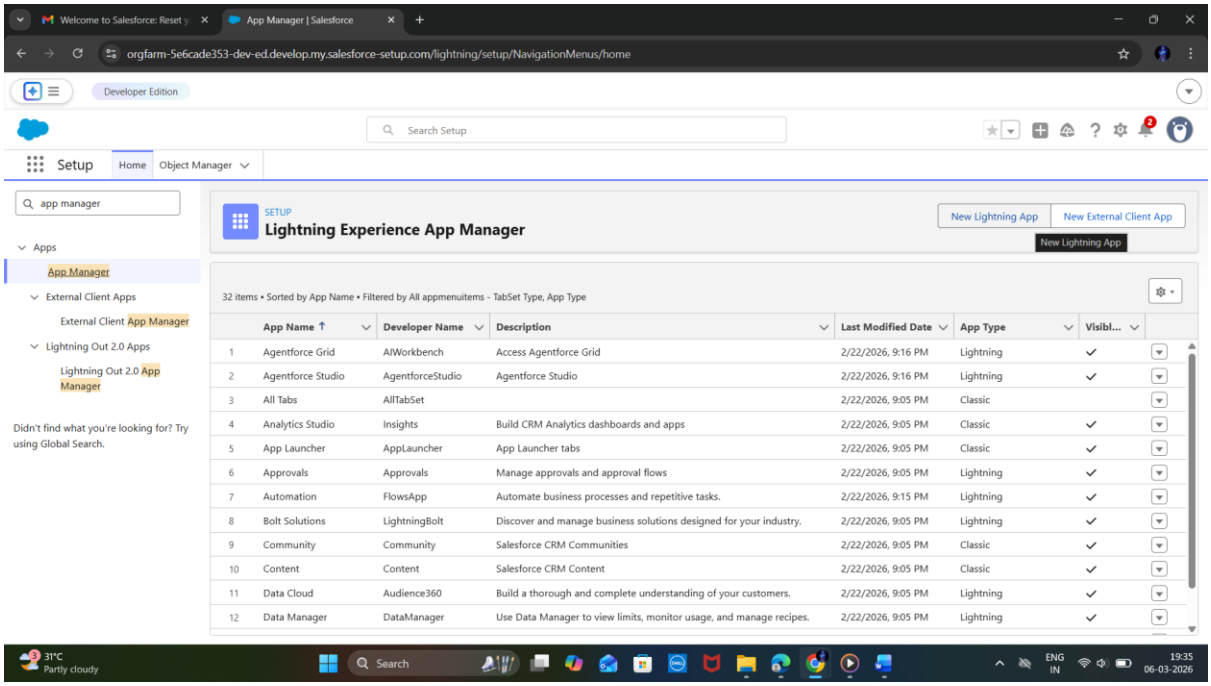
Go to setup page → type Tabs in Quick Find bar → click on tabs → New (under custom object tab)



Milestone 4 - The Lightning App

Activity 1 : Create a lightning app

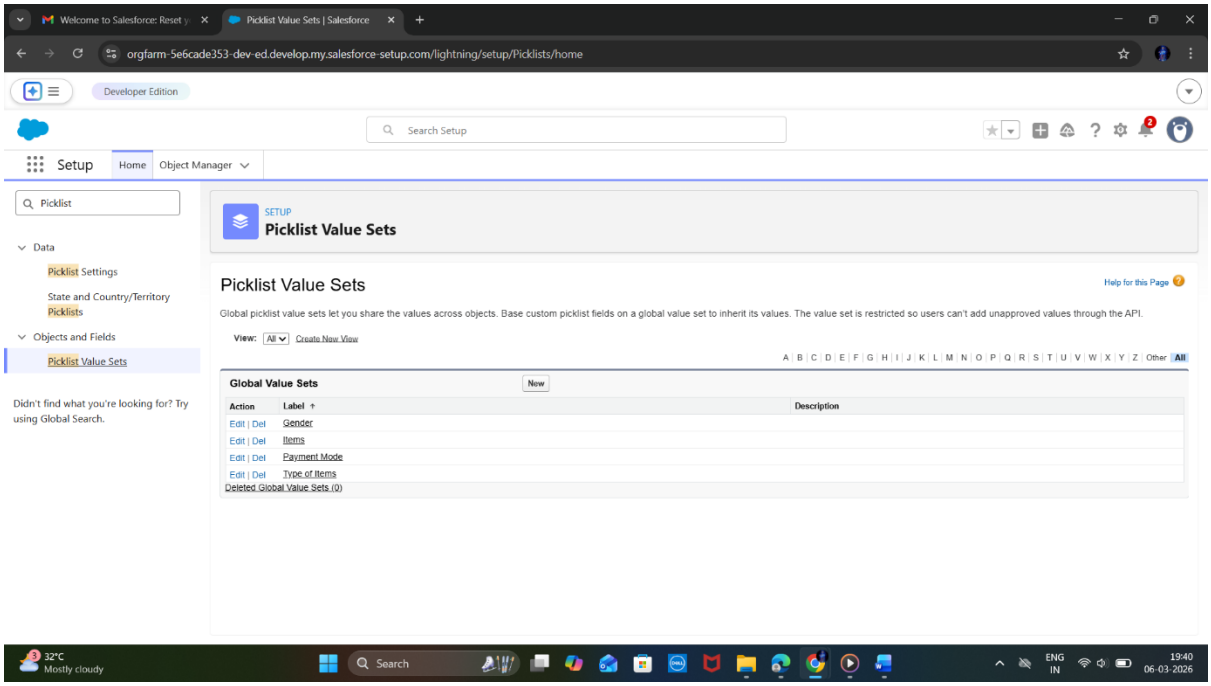
Go to setup page → search “app manager” in quick find → select “app manager” → click on New lightning App.



Milestone 5 : Global Picklist

Activity 1 : Create Global Picklist

In Quick find box search for : Picklist value sets and click New.

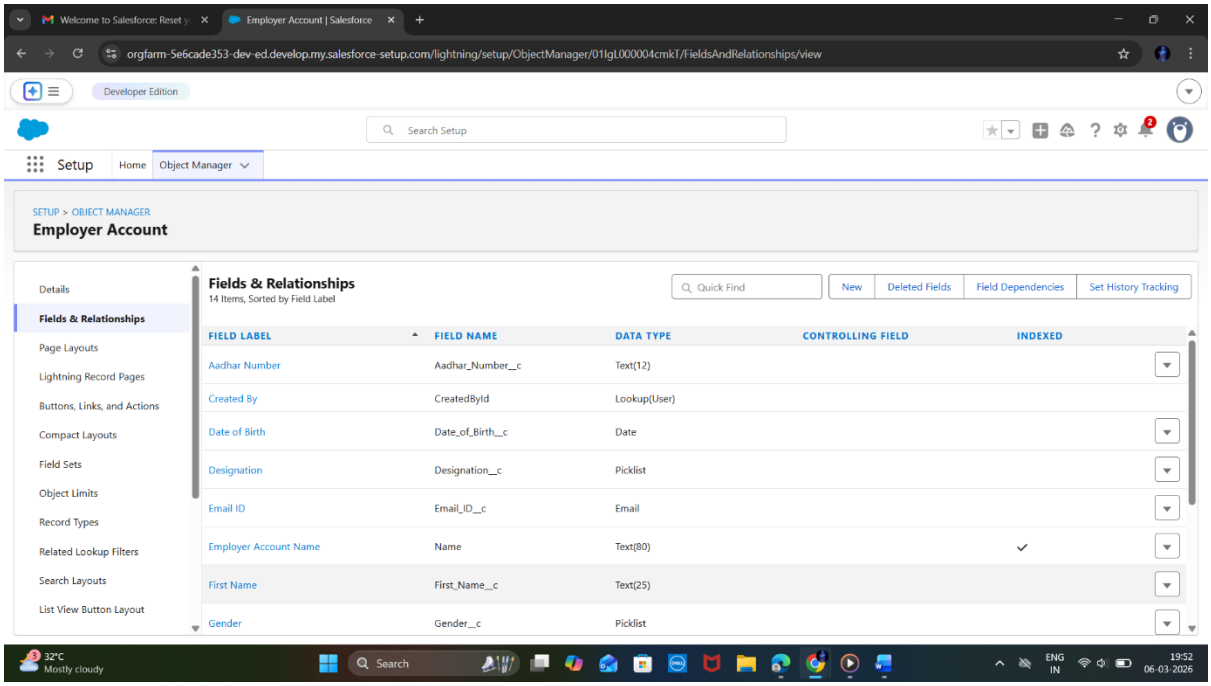


Milestone 6 : Fields & Relationships

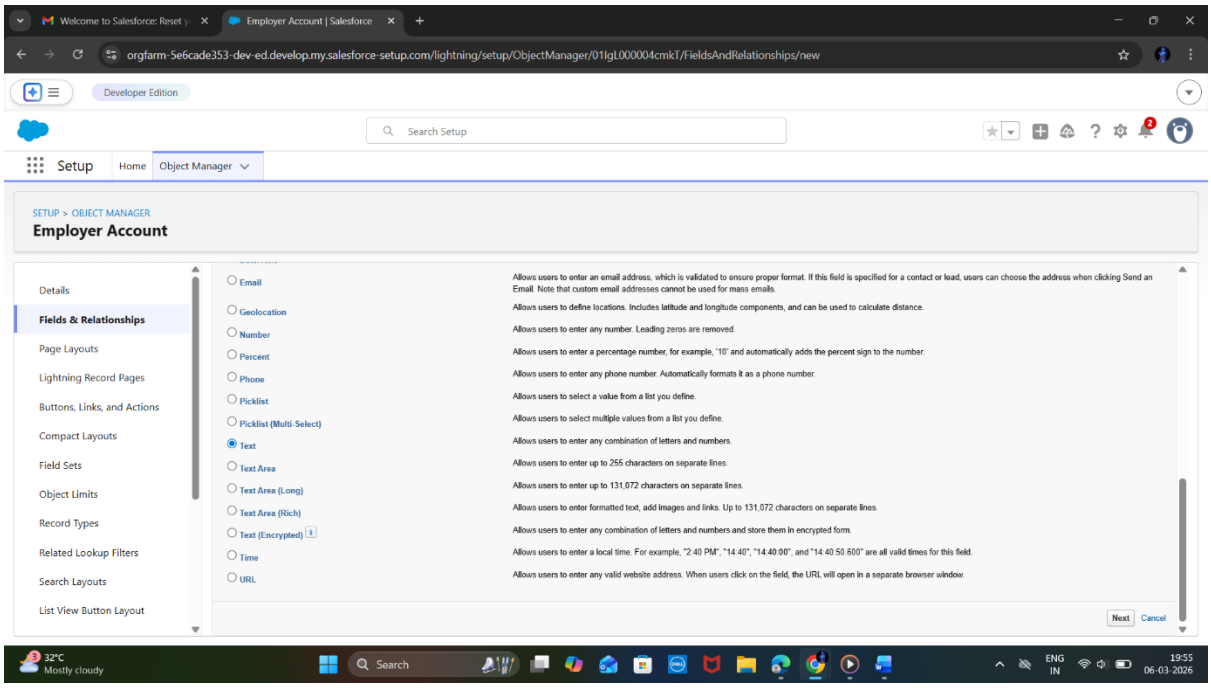
Activity 1 : Create Custom fields for Employer Account

From the object manager page, In the Quick Find box, Search for the custom object you just created : Employer Account

From the sidebar, click Fields & Relationships. Notice that there are already some fields there. Those are the standard fields.



Next, choose a data type as Text. Choosing a data type helps you format the field input.



Repeat the Same steps for remaining fields

Data Type : Text

Data Type : PickList

Data Type : Phone

Data Type : Email

Data Type : Date

Data Type : Text

Data Type : Text(PAN)

Data Type : Picklist

Data Type : Currency

Activity 2: Create Custom fields for Customer Account

Data Type : Text

Data Type : Text

Data Type : PickList

Data Type : Phone

Data Type : Date

Data Type : Formula

Data Type : Email

Date Type : Text

Date Type : Multi Select Picklist

Date Type : Multi Select Picklist (Chai)

Data Type : Picklist

Data Type : Lookup Relationship

Data Type : Formula

Activity 3: Create Custom fields for Enterprise Account

Data Type : Text

Data Type : Phone

Data Type : Email

Date Type : Text

Date Type : Multi Select Picklist

Data Type : Lookup Relationship

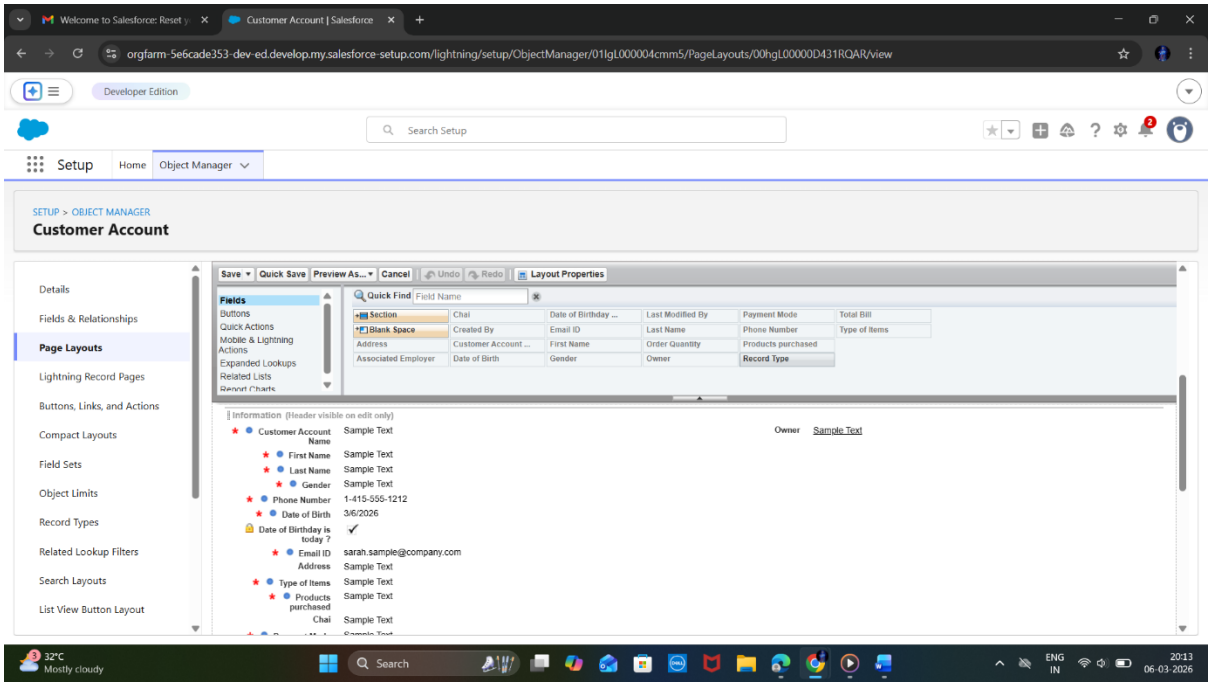
Data Type : Formula

Data Type : Picklist

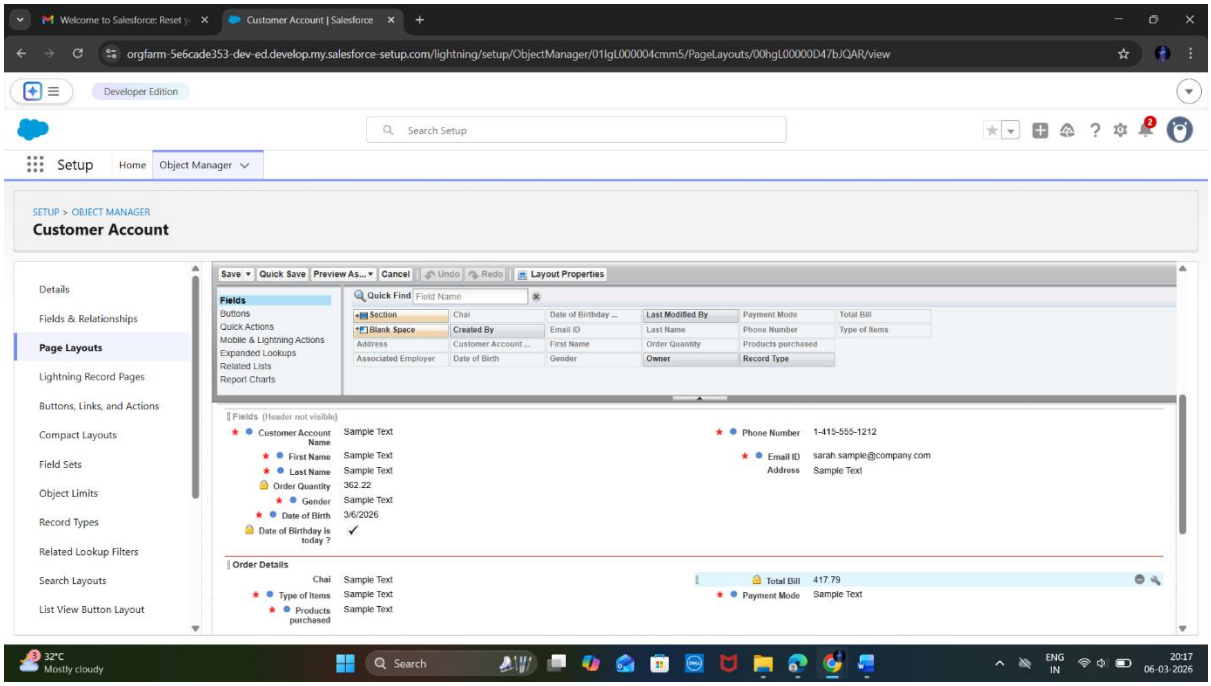
<u>Milestone 7 : Page Layouts</u>

Activity 1: Online Orders page layout

Drag and Arrange all the required fields as shown below.

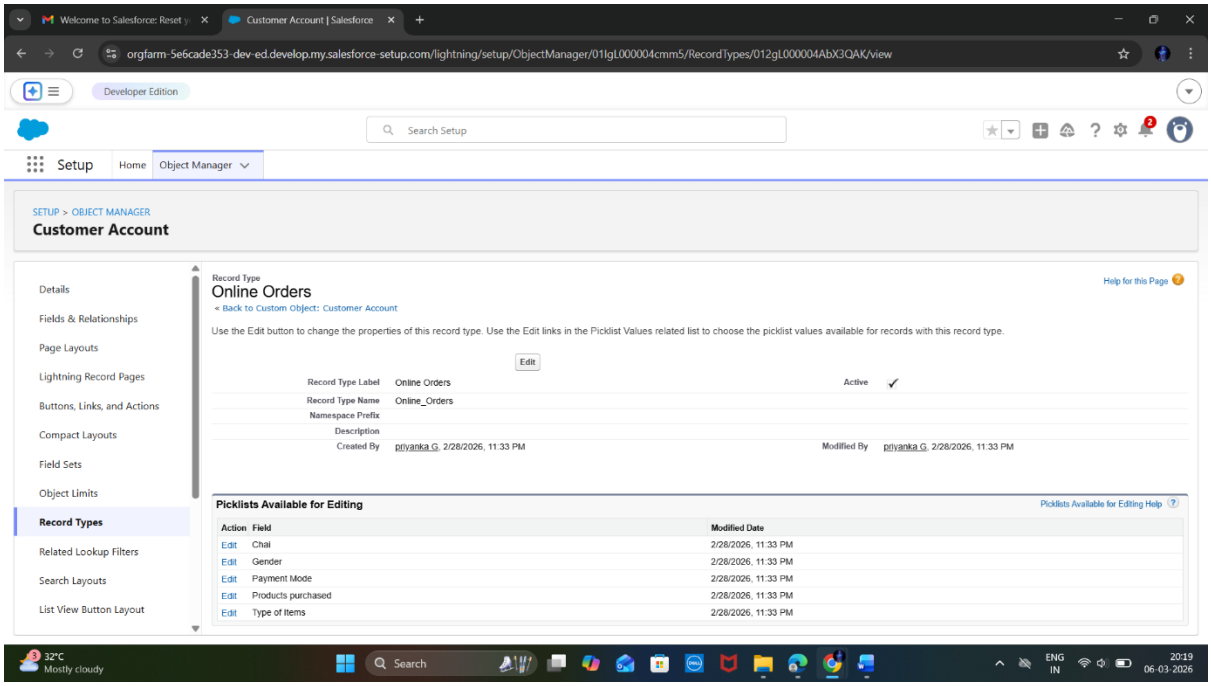


Activity 2: Walk-In Orders page layout

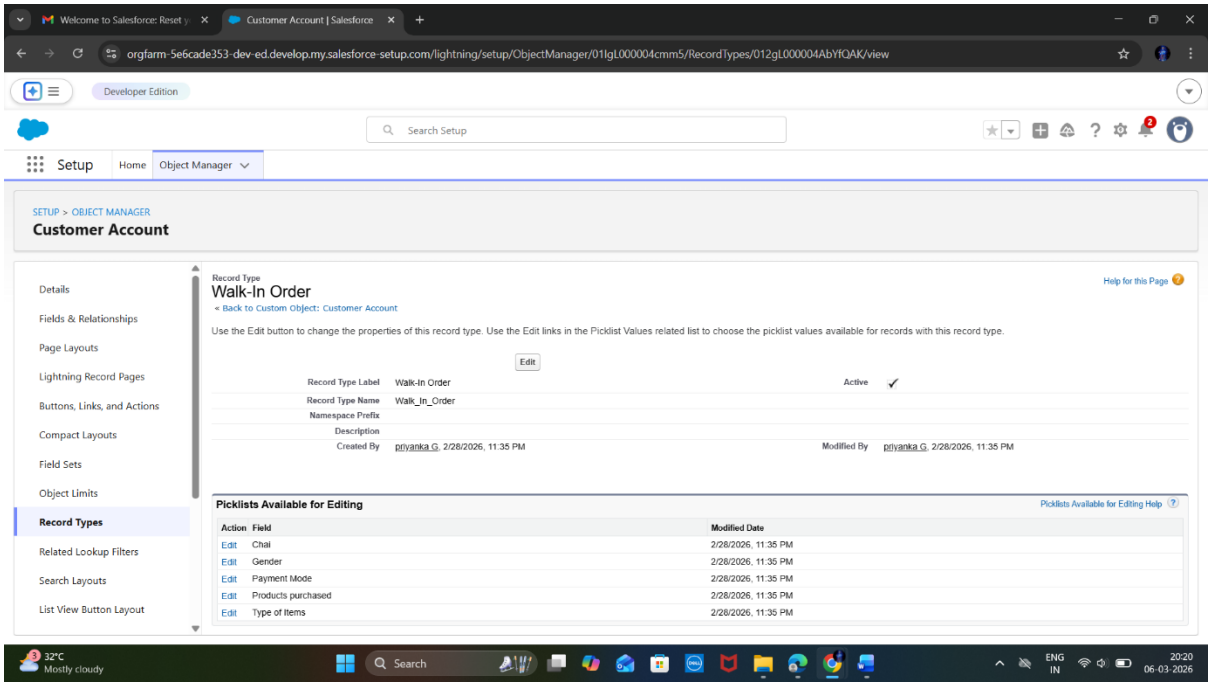


Milestone 8 - Record Types

Activity 1: Online Orders Record Type



Activity 2: Walk-In Orders Record Type



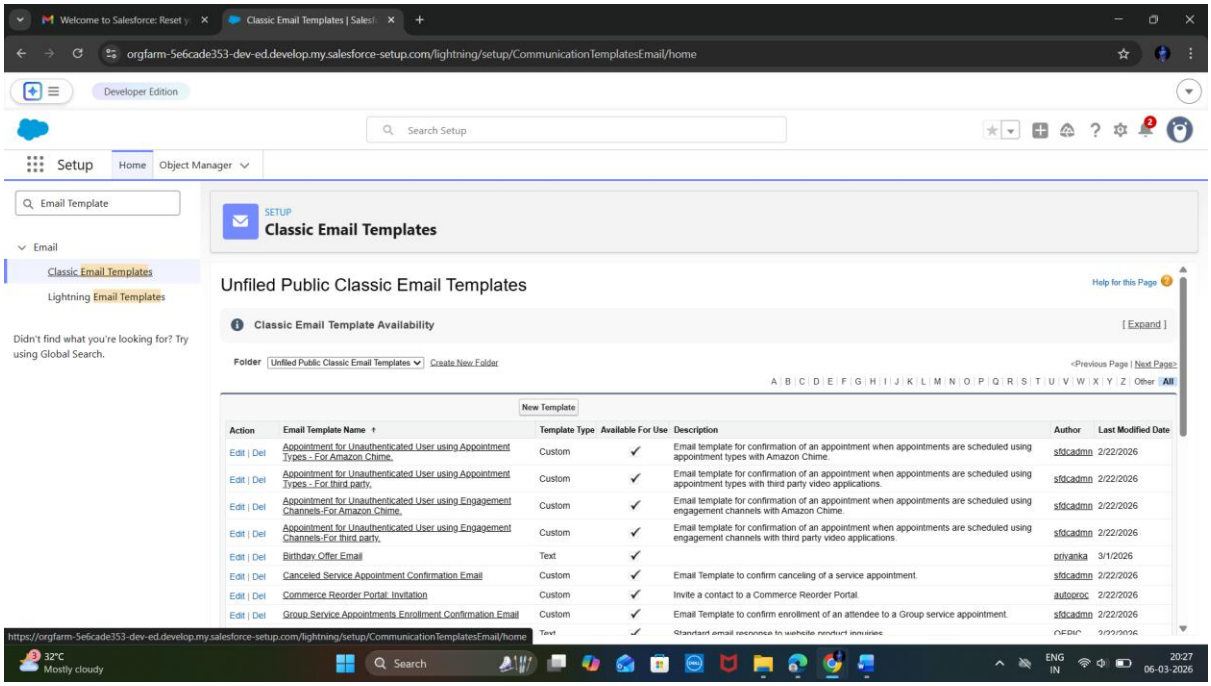
Milestone 9 - Validation Rules

Activity 1: On Employer Account

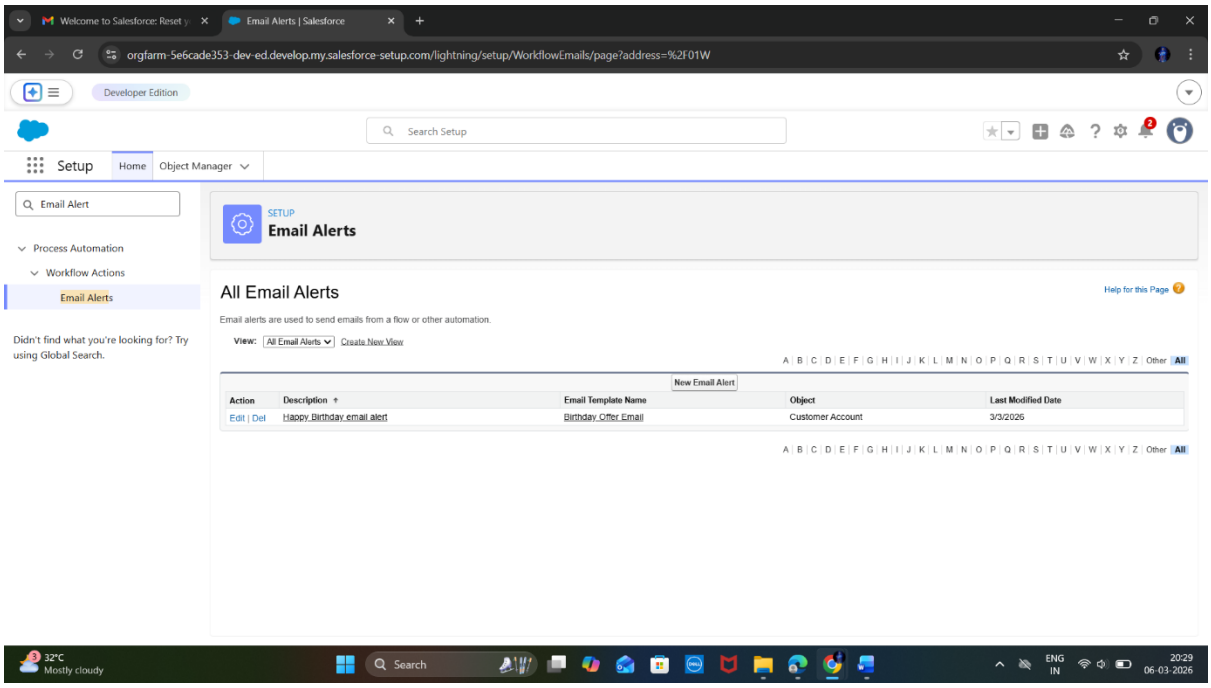
Activity 2: On Customer Account

Milestone 10 - Email Template

Activity 1: Email Template



Activity 2: Email Alert



Milestone 11 – Flows

Activity 1: Schedule Triggered Flow

Go to setup, Type Flow in quick find box → Click on the Flow and Select the New Flow.

Select Schedule - Triggered Flow and click Create.

Flows

Help for this Page

Use clicks—not code—to build flows that provide guided visual experiences or behind-the-scenes automation. Flows can display and collect information from users, process sets of Salesforce records, and use powerful branching logic. You can also add flow actions that provide access to Apex code, JavaScript, and external web services. Learn more about building flows.
